Dear Mrs Jones,

Re: Road Signage Middleton Tyas

Thank you for your letter regarding the signage at Middleton Tyas. I understand your frustrations around the signage and appreciate that this issue has continued to be discussed between the various involved parties since last December.

Regarding the photo you included and the suggestion of moving the existing signs; the difficulty we have is that there are limited options for moving them due to the presence of both a water mains supply and a sewer in the grassed verge area. The signs do also need to adhere to the standards for recommended distances for visibility.

In terms of damage from HGV's heading through Middleton Tyas we have as part of our works previously improved the signage on the A66 approach to Scotch Corner which will reduce the number of vehicles heading straight on at Scotch Corner to Middleton Tyas.

The 'Unsuitable for HGV' sign that had previously been present will be replaced by Friday 27th July. A walkthrough to collect any redundant equipment has been scheduled to take place by the end of this week, Friday 20th July. There are some frames that are due to remain due to planned closures of Scotch Corner interchange.

I apologise that this is not being the outcome you had hoped for. If you would like to discuss anything further, please don't hesitate to contact us.

Yours sincerely,

Liam Quirk
Assistant Project Manager
A1 Leeming to Barton Improvement Scheme
